Farmers Are Protecting Quail.

Special to the Indianapolis Journal. WABASH, Ind., Oct. 13 .- Farmers in this vicinity are up in arms against the hunters who have been killing quail, although the closed season does not expire until Nov. 1. This change of sentiment on the part of the farmers is largely due to the missionary work of Isaac W. Brown, of Fulton county, who, at his own expense, made a tour of northern Indiana pleading for the quail as the farmers' best friend, inasmuch as it destroys the countless insects which ruin the crops. Heretofore there were farms on which hunting was absolutely prohibited, but this number is increasing and will practically include all the land in this and adjoining counties before another year.

He was one of the most De Wollant, the Russian charge d'affaires in Washington, on Oct. 3. It has received the adherence of the American, the French and the Russian governments, thus giving the suggestion the approval of three of the foremost powers and strong assurance of its general adoption. M. De Wollant's note has not been made public. It can be stated, however, that it was the result of extended exchanges between the French and Russian governments relative to the six proposals, and then added the new suggestion relative to giving The Hague tribunal jurisdiction of indemnity in case there should be divergence of views. Not being a formal proposition, but merely an incident to the approval of the French note, it has not called for a formal reply of aceptance, but the Russian authorities have been furnished with a copy of the American reply to the French note, wherein our approval is given to the Russian suggestion, so that it is none the less effective in giving American adherence to the plan. It is understood also that Austria and Italy and probably Japan look with favor upon The Hague suggestion. The movement promises to give the first practical realization to the Czar, a movement in bringing about the International Congress of The Hague. The court of Arbitration has received the approval of the various governments represented at The Hague, and its formal organization is in progress. In the event of his seriously threatening Canton Great Britain and France, possibly assisted by the other powers, would be forced to oppose him, which would create a curious situation. The powers would be acting

against the rebel forces in the south, which are anti-dynastic and friendly to foreign-ers, and at the same time engaged in suppressing the Boxer rebellion in the north, which is pro-dynastic and anti-foreign. of Nebraska.

Cornelius Vanderbilt's Yacht Not Entitled to Prizes.

NEW YORK, Oct. 13 .- Cornelius Vanderbilt's seventy-foot sloop, Rainbow, has been disqualified in all the races she won under the auspices of the New York Yacht Club. She is also disqualified by the Atlantic Yacht Club, and while the dicisions of the Newport Yacht Racing Association and the Seawanhaka Corinthian Yacht Club have not been announced, it is almost certain they will concur with the clubs first named. This deprives Rainbow, among other prizes, of Sir Thomas Lipton's cup which, with Mr. Vanderbilt's name inscribed thereon, as its winner, is now at the New York Yacht Club. Ex-Commodore Kane, chairman of the regatta committee, to-night officially notified Mr. Venderbilt at Newport of the dicision of the committee. In a letter to Mr. Vanderbilt the race committee of the Atlantic Yacht Club thanks him for calling attention to the error in the matter of ballast.

DEFICIT IN ACCOUNTS.

Queer Muddle Developed by the Death of a Minnesota Official.

TWO HARBORS, Minn., Oct. 13 .- There is alleged to be a deficit of nearly \$5,000 in the public funds in the hands of A. H. Wegner, the Cook county commissioner who died suddenly two weeks ago. Of this amount \$1,650 are from the county and \$3,141.61 from the Beaver Bay school district, where Wegner lived. It is also thought the money order account of the Beaver Bay postoffice will show a slight

Wegner's death was somewhat peculiar. A month ago he was hurt in a runaway, but recovered. A messenger sent to call him to the October meeting of the county board found that he had dropped dead on the dock while waiting for the boat. The cause of death was supposed to be heart disease, but there is talk of exhuming the body and making an examination

It Was Her Busy Day.

Lewiston Journal. This is what a middle-aged farmer's wife of Woody Pond Ridge, Bridgeton, did one of the hot afternoons and evenings of this week. She and two of her children rode to Choate's mill, picked fifteen quarts of blueberries, walked home, a distance of two miles, arriving there about 4:30. She than canned four quarts of the berries, made a lot of pies, went out and raked hay for an hour, back to the house, and sprinkled her week's washing ready for ning, made biscuit for the family (comprising herself, husband and five children washed the dishes, made the beds, washed the family's colored clothes, attended to several minor chores, put the children to bed, all who were not old enough to ge that in any way abridge the rights of labor it alone, and turned in herself at 10 o'clock. Refused to Pay Tribal Tax. ARDMORE, I. T., Oct. 13.-A dozen lead-

ing merchants of Ardmore were arrested to-day and their places of business closed by Captain Ellis and a squad of Indian by Captain Ellis and a squad of Indian police for refusal to pay the Indian tribal tax. They submitted peaceably, but United States Judge Townsend was immediately appealed to and issued injunctions against the Indian police, with the result that the stores were reopened promptly. The case will be taken to the United States courts. The merchants consider the tax unjust, inasmuch as they are now paying revenue to the city and they profess to believe it is a dead letter. This was the last day given by the Territory officers to comply with the last.

SERIES OF ACCIDENTS.

Mersey and Finally Sinks.

LIVERPOOL, Oct. 13 .- A series of accidents occurred in the Mersey to-day. The Norwegian steamer Veritas collided with the Leyland line steamer Devonia, from Boston, Oct. 3. Unsuccessful efforts were made to beach the Veritas on the Cheshira shore, after which she was towed off to the Liverpool side, where the cable parted and she collided with the steamer Earl of Powys, causing the latter to break from her moorings. Thereupon both steamers drifted down the river and the Veritas crashed into two thick iron booms stretched from the pier head at St. George's landng stage. Everything above her deck was carried away and she is now a submerged wreck. The Earl of Powys, while drifting smashed her boats, lost her propeller and her crew landed upon the dock wall. The south end of the landing stage was extensively injured. The aggregate damage done will amount to thousands of pounds.

Women can keep secrets.

They often keep secret for a long time the fact that they are suffering from drains, inflammation, ulceration, or female weakness. But they can't keep the secret very long, because the hollow eyes, cheeks that have lost their freshness, and the irritability which comes from sorely tried nerves, all conspire to publish the story of suffering. The usual motive for such secrecy. dread of indelicate questions and offer-

"Your wonderful medicine, 'Favorite Prescription," writes Mrs. C. N. I decided to write to Dr. Pierce and state my case, and am thankful that I did, for I received a favorable reply. I took six bottles of 'Favorite Prescription,' one of 'Golden Medical Discovery,' and one vial of 'Pelleta,' and I can now work as well as I could before I was taken sick. I think Dr. Pierce's medicine the best in the world for sick and servomen."
